

Please consider sharing the following message with the NH NATP members. Perhaps you could post this on your website or share it in the newsletter. IRS has been talking a lot about "**Paycheck Checkup**" this year and it continues to be a priority message from IRS and we are trying to reach as many tax professionals as possible.

Thank you.

IRS message

The IRS continues to urge taxpayers who haven't yet done a "**Paycheck Checkup**" to do one as soon as possible to see if they're having their employer withhold the right amount of tax after major changes in the tax law. The **IRS Withholding Calculator** can help taxpayers learn if they need to make changes soon to avoid an unwelcome surprise come tax time.

During the week of Aug. 13, the IRS is focusing on some groups of taxpayers who should especially check their withholding.

Please help us get the word out -- the earlier people check and adjust their withholding, the more time there is for withholding to take place evenly during the rest of the year.

Information for you:

- Tax professionals and industry partners can learn more at an IRS web conference, **Understanding How to Conduct a Paycheck Checkup**, offered Aug. 15 and 16 in English and Spanish.
